Sir:

Applicants submit the following information on (Substitute) Form PTO-1449 listing a reference pursuant to 37 CFR 1.97. A copy of the patent reference listed on (Substitute) Form PTO-1449 is included.

Applicant submitted an Information Disclosure Statement on May 23, 2008, together with a French language patent (French Patent No. 2633525A1, the "Dupuy" reference) that did not include an English language description. Applicant herewith includes an Abstract of FR 263525A1 to provide a concise explanation of the relevance of the reference in the English language:

This bowl is of the type which, on its outer face, includes zones which have an appearance and/or colouring which are different from the rest of its surface, enabling it to be identified. According to the invention, these zones consist of rings 4, coloured throughout the bulk, arranged with elastic gripping in circular grooves 3, having a transverse profile adapted to their transverse cross-section and independent of any striations.

Respectfully submitted,
